

### Course description

---

The BEC Vantage is a Cambridge International examination which tests English language ability used in the context of business.

The exam tests reading, writing, listening and speaking ability and a single, overall grade is awarded, based on the aggregate of marks gained in the four components. There are no pass/fail marks for individual papers, so you do not need to reach a particular level in any component in order to achieve a pass in the examination.

Recognition of BEC is increasing rapidly as a growing number of companies are using the examination as a focus for in-company training courses. A list of companies that use the BEC examinations for a variety of purposes including recruitment can be found on the Cambridge ESOL website. Many universities in the United Kingdom recognise BEC Higher as a suitable entry requirement for international students to business-related and other courses of study.

### Who is the course for?

---

The BEC Vantage and Higher exams are suitable for economists, accountants, managers, business administrators and university students preparing for a career in business. The level of the Vantage exam is equivalent to the Cambridge FCE and the Higher exam to the Cambridge CAE.
